PROJECTS

Rose Reverie

Brand website for a French beauty salon. Designed to reflect elegance and simplicity, with a focus on service presentation and user experience.

PowerHaus

E-commerce website for a home appliances brand. Showcases product catalog, company background, and team profiles with a modern and responsive interface.

KEY ACHIEVEMENTS

🪄 **Optimized Frontend Performance**

Achieved Lighthouse scores of 90+ across all client projects by aggressively optimizing load time, accessibility, and SEO.

☆ **Improved Development Workflow**

Led codebase refactors and implemented automated testing with Jest and RTL, reducing bug-related delays by 40%.

♥ **Client Delivery Consistency**

Delivered 100% of freelance projects on time, with zero revision rounds in over 60% of cases.

💡 **Scalable CMS Integration**

Streamlined content management by integrating headless CMS solutions, cutting client dependency on developers for updates.

SKILLS

JavaScript · TypeScript · Python ·
React · Next.js · Tailwind CSS ·
Material UI · Node.js · PostgreSQL ·
MySQL

SUMMARY

Full-Stack Developer with over 5 years of experience building modern web applications. Specialized in technologies like Next.js, TypeScript, and frontend performance optimization. Trained as a Computer Science Engineer with a solid background in data structures, algorithms, testing, documentation, and software architecture. Strong ability to lead projects and deliver efficient, UX/UI-focused solutions.

EXPERIENCE

Remote Web Developer   01/2023 - Present

Private Clients   Remote

- Built responsive, high-performance websites for international clients using **Next.js**, **TypeScript**, and **TailwindCSS**.
- Focused on accessibility, SEO, and performance optimization (Lighthouse scores 90+).
- Integrated CMS solutions (Sanity, Headless WordPress) for non-technical client content editing.
- Led codebase refactors and testing improvements using **Jest** and **React Testing Library**.
- Delivered scalable projects under tight deadlines and remote collaboration setups.

Frontend Developer   07/2021 - 12/2022

Freelance Web Projects   Birmingham, UK

- Developed and deployed multiple websites for local businesses and entrepreneurs.
- Customized UI components and reusable design systems using **React**, **Next.js**, and **Styled Components**.
- Collaborated with designers and clients to turn mockups into real, dynamic web interfaces.
- Provided technical guidance and post-deployment support.

Software Developer   09/2020 - 06/2021

University of Informatics Sciences   Havana, Cuba

- Part of a 4-person team that built a Pharmacy Management System for a national health project.
- Focused on building the system's frontend and integrating it with internal APIs and a PostgreSQL database.
- Designed key features like medicine stock tracking, order generation, and user roles management.
- Delivered full documentation and testing protocols following academic standards.

EDUCATION

Bachelor's Degree in Computer Science Engineering   09/2021 - 04/2025

University of Informatics Sciences   Havana, Cuba
